

Bryce Canyon City

Due to recent improved fuel conditions and reduced fire danger Bryce Canyon City is rescinding the Stage 2 Fire Restrictions and moving to Stage 1 Fire Restrictions as of midnight July 28th, 2026 as follows:

Fire Restriction Order (Stage 1)

Due to current and forecasted weather conditions coupled with the extremely dry conditions, it has been determined that measures must be taken to prevent the ignition of forest and rangeland fires. Therefore, Bryce Canyon City has prohibited the following acts in the areas described:

- Setting, building, maintaining, attending, or using open fires of any kind, except within the facilities designated for them in improved campgrounds, picnic areas, or home sites where running water is present.
- Smoking, except within an enclosed vehicle, camp trailer, or building, a developed recreation site, or while stopped in an area that is paved or free from dry vegetation.
- Discharging or using any kind of fireworks, tracer ammunition, or other pyrotechnic devices, including exploding targets.
- Cutting, welding, or grinding metal in areas of dry vegetation.
- Operating a motorcycle, chainsaw, ATV, or other small internal combustion engine without an approved and working spark arrestor.

The following persons are exempted from the above prohibitions:

1. Persons with a permit or waiver specifically issued by the fire chief authorizing a specified act at a specific location. A waiver does not relieve the permittee of liability if a fire does occur.
1. Any on-duty firefighter performing an official duty.
