FOR IMMEDIATE RELEASE

### **High Fire Danger Prompts Fire and Fireworks Restrictions**

Payson – June 16, 2021

Due to extreme dry and very hazardous fire conditions, effective Wednesday June 16, 2021 the following restriction have been implemented:

#### **Fires and fireworks:**

All of the wildland, canyon, foothill areas, and any lands used for agricultural purposes including all incorporated areas of Payson City and everything south and east starting on south Main Street north to 1150 south, east to Payson Canyon Road, north to 800 South, east to 600 East, north to 400 South, east to Goosenest Drive and continuing to Gladstan Golf Course. Areas east, south, and west of the Strawberry Highline Canal including areas in and around Payson Solid Waste Land Fill and Payson Canyon Park. These areas are closed to fires and fireworks of any kind until further notice.

#### **THIS MEANS THAT:**

1. All open fires of any kind are strictly prohibited. This closure shall include, but is not limited to, open burning, campfires, cooking fires, and charcoal barbeques.
2. Smoking is prohibited, except within an enclosed vehicle or building, a developed recreational site or while stopped in an area at least three (3) feet in diameter that is barren or cleared of all flammable material.
3. Possessing or discharging fireworks, tracer ammunition or other pyrotechnic devices on these lands is prohibited. Most wildfires that occur around July 4<sup>th</sup> and 24<sup>th</sup> holidays are related to fireworks.

Open burning is defined as burning of materials wherein products of combustion are emitted directly into the ambient air without passing through a stack or chimney from an enclosed chamber.

A campfire is defined as a fire not within any building, mobile home, or living accommodation mounted on a motor vehicle, which is used for cooking, branding, personal warmth, lighting, ceremonial, or esthetic purposes. Campfires are open fires, usually built on the ground, from native fuels or charcoal grills. LPG fire pits are exempt from these restrictions.

A stove is defined as a campfire built inside an enclosed stove or grill, a portable brazier, or a pressurized liquid or gas stove including a space heating device. Stoves solely fueled by Coleman® type fuels or LPG fuels are exempt from the restrictions.

A map of the restricted area can be seen at [www.paysonutah.org](http://www.paysonutah.org) or from our office.

Any violation of this restriction would be a class B misdemeanor and punishable by up to a \$1,000.00 fine and/or up to 6 months in Jail.

If you have any questions, please contact our office at 801-465-5252.
