

The Utah State Fire Marshal's Office

The more you know!

Utah has a LP-Gas section. This section of the USFMO governs LP-Gas in the State of Utah. They work with the LP-Gas Board to enforce the Utah Fire Prevention Safety Act 53-7 Part 3 and Administrative Rules R710-6.

Here are some of the requirement of the LP-Gas industry.

- 1. All businesses working with LP-Gas and their systems are required to be licensed by the Utah State Fire Marshal's Office.**
- 2. All Employees who work with LP-Gas and their systems must be certified by the State Fire Marshal's office.**
- 3. Permitting is required for LP-Gas systems over 5,000 gallons, all liquid transfer systems, and retail cylinder exchange cages. Our office sends a copy of the plot plans and our approval letter to the local jurisdiction.**
- 4. Any accident involving LP-Gas is required to be reported to the State Fire Marshal's Office.**
- 5. Our office performs annual inspections on various LP-Gas systems.**

Our office is here to help.

- 1. We have teamed up with the Rocky Mountain Propane Association to provide propane emergencies training with our propane prop to local fire departments.**
- 2. Our office personnel have decades of experience working in the propane industry. We can assist you with industry and code compliance issues.**
- 3. Responding to a LP-Gas incident? Need help on how to deal with the situation? Call Us!**

We do ask if you have a LP-Gas incident that you notify our office. We want to track the incident and learn why the incident happened so we can make Utah safer.

For incident response please call Jon Ritchie at 801-864-3553 and he will dispatch a member of the LP-Gas team.

**All other questions call:
South Eastern UT, Boyd Cook 801-580-3443
Eastern UT, Keith Claybaker 385-296-6447
Northern UT, Justin Cheever 385-831-5979**

Or you can call the office at 801-256-2390.
